

Would you like a 'Steiner' school in the Western Suburbs?

Rudolph Steiner or 'Waldorf' education offers children an amazing start in life. It:

- ☺ Nurtures the child's imagination and individuality
- ☺ Teaches through the use of poems, music, games and dance
- ☺ Provides a truly wholistic education - physical, mental, emotional and spiritual
- ☺ Provides a gentle and nurturing education experience

This education style is available and hugely successful all over the world - including Adelaide at Mt Barker, Willunga and more recently Trinity Gardens.

It is possible to create a 'stream' school (via public school system as with Trinity Gardens) right here in the West within a few years if we have strength in numbers and support.

If your child is currently between ages 0 and 3 years - your child could commence and continue a Steiner primary education right here in the west. The school would open with classes Reception and Grade 1 and each year as that class moves on a level, a new class 1 is begun. Thus in 7 years a full primary school of Steiner classes is formed.

We are seeking as many registrations of interest as possible. Only once sufficient interest is gathered will the process begin.

Please complete and return the attached form!
